

AMPCO CELLAR CART

TAP INTO EFFICIENCY WHERE YOU NEED IT

The Ampco portable Cellar Cart stands up to the demands of fluid transfer and CIP. It's lightweight and designed to provide users with maximum mobility in close spaces.

Durable 2-wheeled standard cart features a corrosion-free 304 stainless steel frame and can be equipped with an optional VFD.

Standard cart pump configurations come equipped with the popular Ampco AC+ and CB+ 114 and 216 model sizes. The AC+ and CB+ Series sanitary centrifugal pumps are workhorses constructed of corrosion-free 316L stainless steel, including a 304 stainless steel adapter. Based on traditional C Series dimensions the innovative design of the AC+ and CB+ Series includes a threaded stub shaft with an acorn nut and shaft collar – ensuring a more balanced and stable pump performance leading to increased seal life.

Custom Pump Configurations Include:

Any of Ampco's centrifugal pumps, shear blenders, and more.

AC+ AND CB+ PUMP FEATURES:

- 316L Stainless Steel Construction
- 304 Stainless Steel Adapters
- AC+ and CB+ Shaft Design Adds Value and Durability
- Ease of Assembly and Maintenance
- CB+ internal seal design excels at pumping hot wort leak-free

STANDARD PUMP OVERVIEW:

- Models: AC+ and CB+ 114 and 216
- Max Inlet Pressure: 4 BAR
- Max Outlet Pressure: 6 BAR
- Max Flow Rate: Up to 270 m3/hr
- Max Viscosity: 1200 cP
- Seal Options: Single and Double mechanical

AMPCO WINE AND MUST CART

SEAMLESS TRANSFERS MAKE SUPERIOR WINE

Built to withstand harsh working environments – inside and out – the Ampco Wine and Must Cart meets the rigorous demands of beverage making. The durable Ampco Wine and Must Carts can move viscous ingredients with ease. Because of their tight tolerances, they also excel in gently handling low-viscosity products like finished wine in bottling applications, juice transfer, barrel work, filtering, and filling.

CART FEATURES:

- 304 stainless steel construction
- NEMA or IEC motor frames
- Washdown and stainless-steel motor enclosures

PUMP FEATURES:

The Ampco Wine and Must Cart comes equipped with a durable Ampco ZP Series circumferential piston positive displacement pump selected and sized to fit your process needs and budget.

ZP SERIES PUMP OPTIONS:

ZP1 Series:

AKA, the industry workhorse. Available in 9 models with 5 seal options, COP.

ZP1+ Series:

PATENTED front-loading seal design for maintenance ease. No more removing pipes to change O-ring seals. Available in 5 models with 2 seal options, COP.

ZP2 Series:

Built for higher pressures. Available in 19 models with 2 seal options, COP.

ZP3 Series:

PATENTED front-loading seal design for maintenance ease. Built for higher pressures. Available in 19 models with 2 seal options, fully CIP-able.
